Note: Content highlighted in gray was previously taught in Steps 1-6.

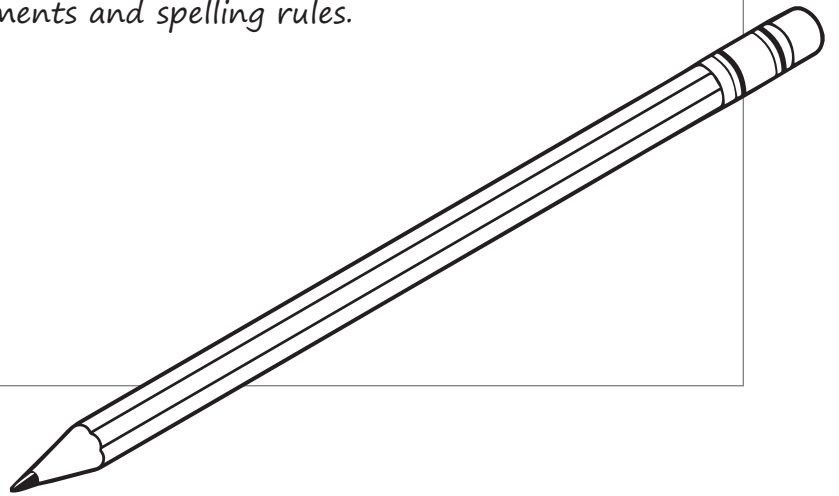

Dear Student:

You will see things that are shaded in gray on the following pages. These shaded boxes have concepts that were previously taught in WRS Steps 1-6. You have already learned so much about words in English!

As you continue in the Upper Steps, you will learn more about sounds, syllables, word elements and spelling rules.

Enjoy!

Barbara Wilson

Syllable Types

Closed Syllable

PREVIOUSLY TAUGHT

1. This syllable can only have **one vowel**.
2. The vowel is followed by **one or more consonants** (closed in).
3. The vowel sound is **short**. To indicate the short sound, the vowel is marked with a breve (˘).

REAL

j**ö**b
˘

NONSENSE

v**o**b

4. This syllable can be combined with other syllables to make **multisyllabic** words.

s**ü**n**s**ë**t**
˘ ˘

t**o**p**i**c

EXCEPTIONS: ind, ild, old, olt, ost words

The vowel is usually **long** even though it is in a closed syllable.

ind

f**i**nd
˘

ild

w**i**ld

old

c**o**ld

olt

c**o**lt

ost

p**o**st

Sentence to remember:

You will find the wild, cold colt on the post.

Vowel-Consonant-e Syllable

PREVIOUSLY TAUGHT

1. This syllable has a **vowel**, then a **consonant**, then an **e**.
2. The first vowel is **long**. To indicate the long sound, the vowel is marked with a macron (¯).
3. The **e** is silent.

REAL

NONSENSE

zake

4. This syllable can be combined with other syllables to make **multisyllabic** words.

concrete

reptile

EXCEPTION: The letter **v**

Sometimes a word has a vowel, a **v**, then an **e**. The **e** may make the vowel long (**five**), or it may be there because English words do not end in a **v**. The vowel sound may still be short (**give**).

Syllable Types

Open Syllable

PREVIOUSLY TAUGHT

1. This syllable has only **one vowel** which is the last letter in the syllable.
2. The vowel sound is **long**. To indicate the long sound, the vowel is marked with a macron (¯).

REAL

hī
c

NONSENSE

bli

3. This syllable can be combined with other syllables to make **multisyllabic** words.

stūdent
o c

require

EXCEPTIONS: Vowels **a** and **i** in open syllables

a says /ə/ in an unstressed open syllable (often the first or last syllable in a word).

adult

extra

i says /ə/ in an unstressed open syllable (often the middle syllable in a word). Sometimes this **i** sounds like a short **i** (/ĭ/).

indicate
c v-e

Final Stable Syllable

(6.4 - 12.5)

PREVIOUSLY TAUGHT

1. This syllable is part of a multisyllabic word and it always comes at the end of the word. This syllable is always stable, or reliable, in its pronunciation and spelling.
2. A syllable made up of a consonant followed by an **l**, then an **e** (consonant-le), is an example of a final stable syllable. The **e** is silent but it is there because every syllable needs at least one vowel. The consonant and **l** are sounded like a blend.

REAL

table

NONSENSE

shubbleEXCEPTION: **stle**

When this final stable syllable (consonant-le) is preceded by an **s**, the **t** is silent. This syllable is sounded /l/.

castle**whistle**

Another final stable syllable occurs at the end of a complex word. It includes a suffix as part of the final syllable within a welded sound. The welded final stable syllables include: **tion, sion, sure, ture, tious, cious, tial, cial, tient, cient, and cian**.

vacation (7.4)

posture (12.5)

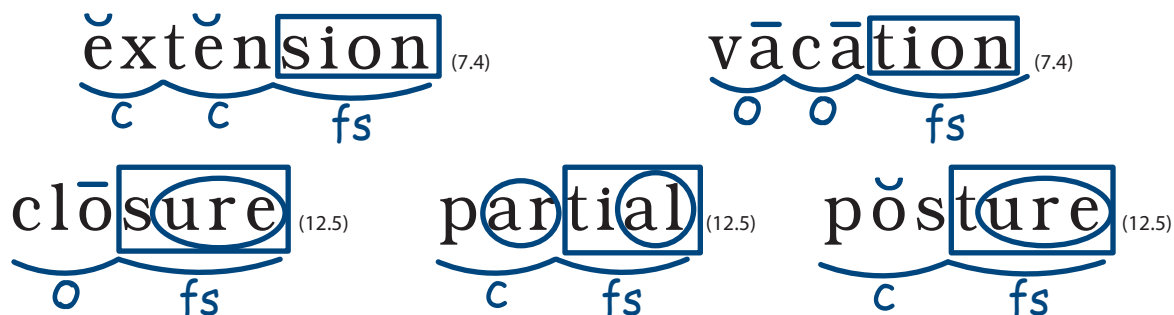

extension (7.4)

facial (12.5)

carpet (8.2)
r c

carry (8.4)
/ē/ o

Double Vowel "D" Syllable

(9.1-12.1)

- This syllable contains a vowel digraph or a diphthong.
 - Vowel digraphs are two vowels together that represent one sound (e.g., **ee**).
 - A diphthong is a sound that begins with one vowel sound and glides into another (e.g., **oi**).
- These syllables can be combined with other syllables to form multisyllabic words.
- Two vowels together are not always a vowel digraph or diphthong. Sometimes they are divided for syllabication.

The Rules of Syllable Division

One Consonant (vcv)

Use one consonant to “close in” the first syllable:	topic
If a word is a compound word, split between the two words:	sunup
One consonant usually goes with the second syllable:	locate

Two Consonants (vccv)

Divide between two consonants:	index
Keep digraphs together:	chicken
If a word is a compound word, split between the two words:	sunset
A blend may stay together in the second syllable, especially if there is a prefix in the first syllable:	preplan
Divide just before the consonant in a word ending in a final stable syllable:	bugle

Three Consonants (vcccv)

Keep digraphs together:	ethnic
If a word is a compound word, split between the two words; the digraph may be in the first syllable:	bathtub
Blend stays together in second syllable:	hundred
Divide after the first consonant in a word ending in a final stable syllable:	juggle

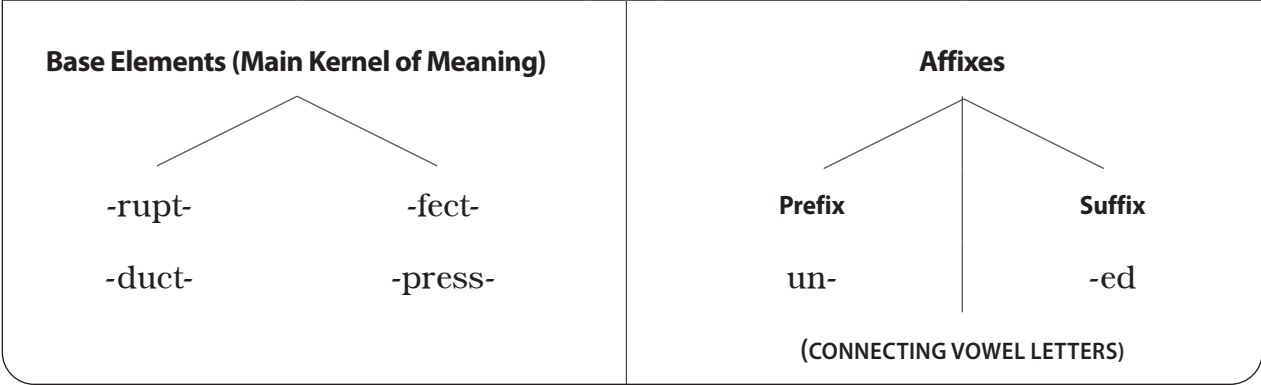

Four Consonants (vccccv)

Watch for compound words that contain digraphs, blends, and welded sounds; divide between them:	dishcloth
Watch for three-letter blends in the second syllable:	construct

Word Elements

Word Elements (Written Morphemes)

Morpheme: the smallest unit of meaning.
Word Element: the written form of a morpheme.

Base Elements and Affixes

Base Element: the word element that carries the main kernel of meaning. *Free* base elements, by themselves, form a word (**zone, yellow, script**). *Bound* base elements cannot stand alone to form a word - they require at least one other word element to form the word (**insult, rupture, invisible**).

Affixes: word elements that are *not* base elements (prefixes, suffixes, connecting vowel letters).

A **prefix** is attached to the beginning of a word (**dis**trust) or base (**dis**rupt) to make a new word.

A **suffix** occurs at the end of a word (convert**ible**) or base (vis**ible**) to make a new word.

A **connecting vowel letter** is one of the vowel letters **e, i, o,** and **u**. These can all function as connecting vowels, joining together word parts (part**i**al, ten**e**ment, therm**o**meter, punct**u**al).

WORD ELEMENTS

Word Elements (Written Morphemes)

Simple Words, Compound Words, and Complex Words

Simple Word: a word with only one word element (morpheme). *All* one-syllable words are simple words (**bug**, **strive**, **purse**) *unless* the word includes a suffix (**bugs**, **tenth**, **growth**). A simple word can have more than one syllable (such as **pretzel**, **dungarees**, and **dozen**) if it has only one morpheme.

Compound Word: a word made up of two or more base elements (including two or more words), both contributing to the meaning of the new word (**hatbox**, **sunset**, and **riptide**). Words made up of Greek combining forms that are base elements are a type of compound word.

sun
= | =

hat
= | =
↪

photo
= | = (7.3)
G

Complex Word: a word with two or more word elements (morphemes). A complex word has a *base element* which carries the main “kernel” of meaning (**-rupt-**, **-sist-**, **-cred-**) combined with at least one affix.

(3.1-12.6)

Meaning	Step 3	Step 3 use before b, p, m	Step 5	Step 7	Step 8	Step 12
with, together	con-	com-	co-		cor-	col-
into, in, not	in-	im-			ir-	il-
within, on, cause to be	en-	em-				
against, in the way	ob-		o-			oc- of- op-
out of	ex-		e-			ef-
apart, not	dis-		di-			dif-
to, toward, at	ad-		a-/ə/	ac-*	ar-	ac- af- ag- al- an- ap- as- at- (/ă/ and /ə/)
under	sub-			suc- sug-	sur-	suf- sup-

*Note: **ac-** is also the prefix used before **qu** (as in acquire).

Word Elements

Common Suffixes (1.6-10.5)

PREVIOUSLY TAUGHT

A base word can stand alone as a word or have something added to it. **bugs**

A suffix, added to a base word, usually indicates a part of speech and it can also add to the meaning of the word. **checking**

A base word can be altered when a suffix is added, e.g., **completing** and **fanciful**.
A suffix can be added to a base element as part of a complex base word, e.g., **credible**.

Reasons to Double Consonants

(1.4-12.6)

❶ Bonus Letter Rule at the end of a one-syllable word, double **ff**, **ll**, **ss**, and sometimes **zz**.

off

fill

pass

hall

buzz

❷ To retain short vowel sound in the first syllable:

rabbit

bunny

wiggle

narrate (8.4)

❸ When adding a prefix that ends with the same letter that begins the base word or base element:

commit

unnerve (8.3)

disservice (10.2)

❹ The Doubling Spelling Rule:

shopping (10.3)

tipped (10.3)

outfitter (10.4)

beginner (10.4)

❺ When there is an assimilated (chameleon) prefix:

collect (12.6)

oppose (12.6)

Note: The consonants **h**, **j**, **k**, **v**, **w**, **x**, and **y** do not double in English words.

Mark Words

cherry (8.4)
✗ o

collect (12.6)
c c

or

collect (12.6)

Ways to Spell /k/ = c, k, ck, ch, que

(1.2-12.4)

PREVIOUSLY TAUGHT

Use **c** at the beginning of a word.

cat

Use **c** when the word begins with /k/ in a blend.

crash **clash**

Use **c** in a three-letter blend.

scrap

/k/ at the beginning of a word or syllable

(7.1)

Use **k** to spell /k/ before an **e**, **i**, or **y**:

Ken kite Kyle

/k/ in r-controlled or double vowel syllables

(8.1-9.2)

R-controlled one-syllable words that end with the /k/ sound end with the letter **k**. Use **k** to spell /k/ after a double vowel.

park (8.1) seek (9.2)

Spelling Rules/Generalizations

Ways to Spell /k/ = c, k, ck, ch, que (continued)

(1.2-12.4)

Suffixes beginning with e, i, or y added to multisyllabic words ending in ic (10.4)

Add **k** instead of doubling the c to retain the /k/ sound.

_____ **panicked** _____ (10.4)

_____ **picnicking** _____ (10.4)

Ways to spell /k/ in words from other language origins (12.4)

Use **ch**, in some words of Greek origin including with /sk/ initial blends.

Use **que**, at the end of some words of French origin.

_____ **ch** _____
_____ **chorus** _____ (12.4)

_____ **que** _____
_____ **clique** _____ (12.4)

Contractions

(7.5)

- Contractions are formed by combining two words, omitting one or more letters.
- A letter or letters are dropped from the second word.
- The omitted letters are replaced by an apostrophe (').

Contractions with not

Spelling Rules/Generalizations

Double "D" Vowel Patterns

(9.4-9.5)

Generalizations for oi and oy

Use **oi** at the beginning or middle of a word.

_____ **boil** _____ (9.4)

_____ **ointment** _____ (9.4)

Use **oy** at the end of a word.

_____ **boy** _____ (9.4)

_____ **destroy** _____ (9.4)

Generalizations for ou and ow

ou can be used to spell the /**ou**/ at the beginning or middle of a word

_____ **out** _____ (9.5)

_____ **ground** _____ (9.5)

ow can be used to spell the /**ou**/ at the beginning or middle of a word when followed by **n, l, el, or er**

_____ **town** _____ (9.5)

_____ **towel** _____ (9.5)

ow is used at the end of a word to make the sounds /**o**/ and /**ou**/

_____ **cow** _____ (9.5)

_____ **follow** _____ (9.5)

The Silent e and Suffix Rule

(10.2)

Vowel Suffixes

When adding a vowel suffix to a base word ending in **e**, drop the **e**.

glide + ing = gliding

dance + er = dancer

If a base word ends in **ce** or **ge**, do not drop the **e** when adding a vowel suffix if dropping the **e** would change the **c** or **g** to a hard sound.

traceable

Consonant Suffixes

When adding a consonant suffix to a base word ending in **e**, just add the suffix.

like + ly = likely

settle + ment = settlement

Mark Words

bake^eing (10.2)

survive^ed (10.2)

Spelling Rules/Generalizations

The 1:1:1 Doubling Rule Part I

(10.3)

A word with one syllable (closed or r-controlled), one vowel, and one consonant after the vowel.

1:1:1 WORDS (DOUBLE)	1 SYLLABLE (CLOSED OR R-CONTROLLED)	1 VOWEL	1 CONSONANT (AFTER THE VOWEL)
bar	✓	✓	✓
cup	✓	✓	✓
stir	✓	✓	✓
flat	✓	✓	✓
strap	✓	✓	✓

Vowel Suffixes

When adding a vowel suffix to a 1:1:1 base word, double the final consonant.

_____ cupped _____

_____ shipped _____

_____ flattest _____

Consonant Suffixes

When adding a consonant suffix to a 1:1:1 base word, just add the suffix.

_____ cupful _____

_____ shipment _____

_____ flatly _____

Mark Words

cupful (10.3)

shipped* (10.3)

The 1:1:1 Doubling Rule Part II

(10.4)

In a multisyllabic word that ends in a stressed syllable that is an r-controlled or closed syllable, with one vowel, with one consonant following the vowel.

Vowel Suffixes

When adding a vowel suffix to a base word, double the last consonant.

comm**it**' + ed = committed pref**er**' + ed = preferred

adm**it**' + ing = admitting suf**er**' + ing = suffering
(do not double the **r** because the stress is on the first syllable)

Consonant Suffixes

When adding a consonant suffix to a base word, just add the suffix.

comm**it**' + ment = commitment defer**er**' + ment = deferment

Note: Words ending in **ic**: add **k** rather than doubling the **c** to add suffix (this helps to retain /**k**/ sound).
See ways to spell /**k**/ = **c**, **k**, **ck**, **ch**, and **que**.

Mark Words

committ^{*}ed (10.4)

deferment (10.4)

Spelling Rules/Generalizations

The y + Suffix Rule

(11.2)

If **y** is a part of a diphthong or vowel digraph ("D" syllable), just add suffix.

play + ed = played employ + ment = employment

If **y** comes after a consonant:

change **y** to **i** when adding a vowel or a consonant suffix. The **i** retains the original sound of the **y**;

cry + ed = cried cry + es = cries

and if the suffix is **-ish**, do not change the **y**, just add the suffix.

baby + ish = babyish

Complex words can be formed by combining a Latin base with a suffix. When the word can be formed with a **y** suffix and also one that begins with an **i**, the resulting word with the **i** suffix appears to have dropped the **y**, but it actually did not.

Latin Bases	Suffix	Complex Word
histor	y ic	history historic
econom	y ist	economy economist
memor	y ize	memory memorize

Mark Words

played (11.2)

cries (11.2)
